PROFILE

Motivated and detail-oriented Front End Engineer with over 2 years of experience building scalable, responsive, and visually engaging web applications. I specialize in React, Angular, and Next.js, with a strong interest in web3 and blockchain technologies. I have led and contributed to various live projects, collaborated with global teams, and continually expanded my capabilities toward becoming a Full Stack Engineer and Software Consultant.

SKILLS & COMPETENCIES

- Languages & Frameworks: HTML, CSS, JavaScript, TypeScript, React.js, Vue.js, Angular, Next.js, NestJS
- Styling Tools: Tailwind CSS, Shadcn UI, CSS Modules, Styled Components
- State & Data Management: NgRx, Angular Signals, Context API, TanStack Query
- Other Tools: Git, GitHub, Nx Monorepo, Firebase, Postman, Vitest, Jest
- APIs & Services: REST APIs, WooCommerce Headless API
- Soft Skills: Communication, Collaboration, Leadership, Self-Motivation, Problem-Solving
- SEO & UX/UI: Strong understanding of user-centered design and SEO optimization principles

EXPERIENCE

Build Africa (Hybrid) – Frontend Engineer

Lagos, Nigeria | Jan 2023 – Present

• Built and deployed an e-commerce platform using Angular and WooCommerce APIs

• Utilized Nx monorepo for scalable application architecture

• Implemented performance-optimized frontend solutions for seamless shopping experience

Shielded Bit (Remote) – Frontend Developer

London | Jan 2023 – June 2023

• Developed a CRM for client and content management

• Collaborated across departments to translate business ideas into user-focused digital solutions

Tublian (Remote) – Frontend Contributor

Columbus, Ohio | Aug 2022 – Jan 2023

• Contributed to open-source projects and improved codebase quality

• Enhanced documentation for better developer onboarding and usability

The OakSoft Limited (Remote) – Frontend Developer

Lagos, Nigeria | May 2021 – Jan 2023

• Debugged and optimized legacy websites for performance and UX

• Implemented clean, reusable code and responsive design best practices

PROJECTS

Build Africa Store WEB & Mobile App (Angular, NgRx, Tailwind CSS)
• Seamless frontend/backend integration using NgRx

• Implemented reusable data store and responsive user interface
• Enabled **Capacitor-based deployment** to convert the Angular web app into a native mobile app.

BuildCore WEB & Mobile App (Angular, Angular Signals, Tailwind CSS)

• Developed a feature-rich CRM and vendor management platform with full integration into logistics and procurement workflows.

• Implemented advanced **vendor onboarding forms**, including **Google Maps Autocomplete integration** for location selection and **e-signature capture** with image compression.
• Leveraged **Angular Signals** for reactive UI updates and modular state management.
• Enabled **Capacitor-based deployment** to convert the Angular web app into a native mobile app.

Chainverse Academy (React, Next.js, Tailwind CSS, Smart Contracts)

• Built an educational hub for blockchain and web3 enthusiasts

• Implemented instructor/student dashboards, cart & checkout flows, role-based access control

• Developed 2D/3D logo assets and branding using Figma

Strawline (React, Context API, TanStack Query, Tailwind CSS)

• Modern frontend architecture with optimized state management and data handling

• Integrated scalable components and responsive design for web application UI

EDUCATION

Kwara State Polytechnic, Ilorin, Nigeria

Higher National Diploma (HND) in Computer Science – 2019 – 2021

National Diploma (ND) in Computer Science – 2015 – 2017

LEADERSHIP & VOLUNTEERING

Student Representative – National Association of Faculty of Management Students

Oversaw operations of a student-led body with 300+ members

Team Leader – Digital Library System Project, Kwara State Polytechnic

Led a 25-member team to develop a digital library solution

Managed system setup, networking, and deployment phases

CAREER OBJECTIVE

To grow into a top-tier Software Engineer and Consultant, contributing to the development of scalable digital solutions and empowering others through knowledge-sharing in software and blockchain development.
